

Susana Miller!

The First Lady of Milonguero!

Susana returns to Cincinnati May 13-17!

Susana is an amazing teacher! She has been responsible for a major worldwide surge of interest in the "milonguero" or "apilado" style of tango dancing which is based on the style danced in the inner city clubs of Buenos Aires by many of the older dancers. It is characterized by a very close, intimate embrace and compact steps. Susana studied these older dancers and began codifying what she saw. Together with Cacho Dante, they coined the term "milonguero" for this style.
